GOLD BONDS.
During the past few weeks, and especially since the closing of the government loan by our firm, the demand for 7-30 NORTHERN PACIFIC GOLD BONDS has been larger than ever, while the exchange of five-twenties called in for redemption in December is daily increasing. This shows that holders of five-twenties are not only alive to their interests, but that they have the fullest confidence in Northern Pacific seven-thirties.

The bonds are secured, beyond all question, by a first and only mortgage on the road, its entire rolling stock, and 80,600,000 acres of the linest land in the world.

We do not bestate to commend these Bonds to our friends and the public.
